SUMMARY

I am a passionate and motivated Computer Science and Engineering student at Green University of Bangladesh, with expertise in Web Development, Frontend Development, Odoo, and Graphics design, along with a growing interest in AI and Machine Learning. I have hands-on experience working with CNNs and Vision Transformers (ViT), and I am continuously enhancing my skills in modern technologies. Beyond academics, I actively contribute to campus ambassador, organizations, university clubs, and volunteering activities, where I develop leadership, teamwork, and organizational, event management skills. With a strong curiosity and a drive to grow, I am eager to take on challenges, expand my knowledge, and contribute meaningfully as a developer and aspiring AI engineer.
