OBJECTIVES

Dedicated and motivated undergraduate student aspiring to conduct thesis research in Machine Learning, Artificial Intelligence, Internet of Things, and Computer Vision. Strong academic foundation and active campus engagement have prepared me to work collaboratively, contribute innovative ideas, and pursue impactful research. Passionate about exploring cutting-edge technologies, applying theoretical knowledge to practical challenges, and growing under expert supervision for both academic excellence and real-world impact.

EDCUCATION

B.Sc in Computer Science and Engineering, 8th Semester
Current CGPA: 2.76
Green University of Bangladesh

RELEVANT COURSEWORK

- Date Structures
- Algorithms
- Database Management Systems
- Object-Oriented Programming
- Computer Networking
- Artificial Intelligence
- Information System and Design

TECHNICAL SKILLS

- Programming Languages: C, C++, Python
- Competitive Programming: Codeforces Rating – 614 (Newbie)
- Front-End Web Development: Java script, React
- Other Tools: GitHub, MySQL, LaTeX, Office Applications, Canva
  Soft Skills: Teamwork, Communication, Problem Solving

EXTRA CURRICULAR ACTIVITIES

- **Runner Up**, Intra Department Programming Contest'24 (Beginner), Organized by GUCC
- Earned certifications from Enhancing Digital Government and Economy (EDGE) program

LANGUAGES

- English (Fluent)
- Bangla (Nativ)
- Hindi (Fluent)
