MD MAMUN AHMED

Undergraduate Student

+8801580429635 ask.mamunahmed@gmail.com

SKILLS

- Robotics And Automation
- PCB Design and Fabrication
- Electrical Architecture Design

PROJECTS

Project Lotus

06/2024 - Present GUB

Summary-

- The project focused on building a semi-autonomous rover capable of performing complex tasks such as terrain navigation, object manipulation, and system diagnostics.

TRAINING / COURSES

Robotics
Roboment BD

Pyrhon With Django
EDGE, GUB

Android App Development

AWARDS

- Dean's List for Securing 3.8 in Fall 2024
- Hazi Mohammad Asab Ali Primary Scholarship - 2013
- Lotifia Smriti Medha Britty - 2013

CERTIFICATION

Mobile Application Development using Android
BDSkills

Fundamentals of digital marketing
Google

Digital Marketing Certification
Hubspot Academy

SUMMARY

Dynamic and results-driven Electrical and Electronic Engineering (EEE) student with proven hands-on experience in Robotics and Automation, PCB Design and Fabrication, and complex system integration. Demonstrated leadership as the President of the Green Robotics Society and key contributor to the GUB Mars Rover Project, serving as both the Logistic and Management Lead and a member of the Electrical and Communication Team. Combines a robust engineering foundation with strong project planning and organizational skills to contribute to innovative technical development.

EDUCATION

BSc (Honours) in Electrical and Electronic Engineering

Green University of Bangladesh — 06/2022 - Present — GPA **3.62** / 4.00

Higher Secondary Certificate

Jalalpur College — 06/2019 - 01/2022 — GPA **4.75** / 5.00

Secondary School Certificate

Jalalpur High School — 01/2017 - 02/2019 — GPA **4.50** / 5.00

EXPERIENCE

President

Green Robotics Society — 03/2025 - Present

Spearheaded and managed all Green Robotics Society operations , focusing on the strategic development of innovative robotics projects. I directed all technical activities, coordinated the team's participation in inter-university competitions, and oversaw critical administrative functions including budgeting, sponsorship, and university coordination.

Founding Member, and Sub Team Lead

Green University Mars Rover Team — 06/2024 - Present

Played a key role in establishing the university's first Mars Rover team to compete in national and international robotics competitions. Oversaw project planning, task delegation, budgeting, and sponsorship acquisition. Also contributed as a core member of the Electrical & Communication Team, designing and implementing the rover's electrical architecture, including power distribution, motor control, and sensor integration.

SEO Specialist

Wizard Media Pro — 02/2022 - 11/2024

https://wizardmediapro.com/

As an SEO Specialist, I developed and implemented effective SEO strategies to improve client website visibility and organic search rankings. My responsibilities included conducting keyword research, analyzing website performance metrics, and providing data-driven recommendations for continuous optimization. I also ensured strategies remained current by staying abreast of industry trends and algorithm updates.

Social Media Manager

Freelance and Remote Job — 01/2021 - 11/2024

I managed social media campaigns for clients, focusing on collaborating with clients to understand their business goals and optimizing content across various platforms. This role required active monitoring and responding to online engagement , while also educating clients on best practices and the importance of online engagement.

Marketing Manager

Needy House Builders Pvt LTD — 01/2020 - 05/2022

Managed document preparation and regulatory compliance for clients in residential construction. Prepared and compiled essential documentation, including rule sets and compliance materials, while developing strategies to strengthen the company's brand presence. Supported community engagement initiatives such as property launches and ensured all marketing activities adhered to legal and regulatory standards.

VOLUNTEERING

Departmental Head (Services and Health)

Bangladesh Red Crescent Society, Osmaninagar — 07/2020 - 07/2022

INTERESTS

- Robotics
- Autonomous System
- VLSI

VOLUNTEERING

Youth Member

Bangladesh Red Crescent Society, Sylhet Unit — 01/2021 - Present

I actively participated in community outreach initiatives, promoting the principles of the Red Cross and Red Crescent Movement and advocating for humanitarian values. I received training on disaster response protocols and actively engaged in relief efforts during emergencies. Furthermore, I took on leadership roles within the youth group to plan and organize various activities.

Local Representative

Sa Ha Ba (NGO) — 02/2023 - 07/2024

I represented the organization locally, coordinating activities with expatriate leadership. My core duties involved managing incoming funds, ensuring transparent and equitable distribution to the underprivileged, and maintaining detailed records of donations for regular reporting to stakeholders. This role was key in building community trust and strengthening the organization's local impact.

WORKSHOP/SEMINAR ATTENDED

Robot Controls: A Beginner Guide

03/2023

Learned the fundamentals of robot control systems through hands-on experience in building a basic line follower robot. Gained introductory knowledge of sensor integration, motor control, and algorithm development for autonomous navigation.

Habits of High Performing People

01/2023

Attended a motivational and personal development workshop conducted by Prof. Dr. Golam Samdani Fakir, hosted by the Fakir Memorial Foundation. Gained insights into the mindset, routines, and discipline that drive success and high performance in both academic and professional life.

Seminar on Robot Operating Systems

05/2024

Seminar on the Robot Operating System (ROS), covering architecture, node communication, packages, and simulation tools for developing advanced robotic systems.
